On arrival settle in to assigned Yurt Accommodation Discuss activities and sign up to evening program Dinner served 5:30pm

Activities begin at 6:30pm Astronomy

Aboriginal craft, culture, and language. Refer to the information on the right.

Evening program finishes at 8.30pm

Activity Descriptions

Astronomy -

Local Astronomer guides you to view the night sky through a 12" Mirror telescope. A ladder will be climbed to look through the telescope.

Local and Aboriginal Elders Storytelling -

Connect to our Elders with the younger generation, as stories are often a way to pass down family traditions, secrets, to keep people connected with the lives of our past generations.

Language - Learn Wiradjuri, from one of our local residents. Learning another language requires learning about another culture. This is, to experience a different culture from the inside, so as to empathize with a broader range of others and to enrich one's ability to appreciate varied human experiences. Some of our local Aboriginal Language.

Aboriginal Painting -

Learn how to tell your story through the art of Aboriginal painting. Choose from a couple of materials to present your story on with the use of colour and design.

1:30pm Lunch

2.30pm Depart
